

give2givehope  
annual report

2014

Maykel, age 4

Me and Jose, one of my sponsored children who has a genetic disorder that leaves him without the use of his arms and legs. What a blessing to see his smiling face!

Life is full of seasons. There are times of preparation and planning, times for turning soil and planting seed, times for ensuring what you've planted has everything necessary to grow, and of course times to harvest what you've planted. 2014 was a "spring" season for Give2GiveHope, following the quiet and subdued "winter" season of 2013. It was good to get back in the swing of things and I'm looking forward to all the activities of the "summer" season ahead of us from all the seeds that were planted last year.

I was asked to serve as a consultant this year and to help lead a trip to Honduras in June for a church. It's amazing to see how God is raising up others to come alongside of our organization and partner with us to accomplish even more than we could alone.

The Give2GiveHope Trade School (Carpentry Shop) saw a lot of activity this year and we're excited to share the progress of this project with you. We draw closer to finishing this project and look forward to the "harvest" time when young men are able to gain some vocational skills and ultimately support themselves and their families... and of course, we look forward to Phase II which will benefit young women.

We continue to see more children sponsored each month, which is a tremendous thing. Our volunteer staff in Honduras has had to grow to keep up with the number of children who are sponsored, which presents new challenges on how to keep our services flowing for all. Our team in Honduras has been incredible at coming up with solutions and there are many new hands that have come to assist our volunteer coordinators, Javier & Letty. It's so amazing to see how everyone pitches in and gives of their time to help ensure our programs continue uninterrupted.

Thank you for your partnership with us, for your generosity and compassion to help us achieve the goals of providing much-needed food, clothing, medical care and education to impoverished children. I, and the Board of Directors of Give2GiveHope, wish to express our deepest gratitude for your sacrificial giving and for sharing the vision with us. As we look forward to a busy 2015 doing God's work, God's way, in God's time and for God's glory, we are encouraged that you are with us along the way. May God bless you as you bless us!

Ken Hayes / President, Give2GiveHope

from our president

	Donations	Expenditures
Child Sponsorship	\$42,740	\$39,235
Child Education	\$5,451	\$5,886
Child Medical	\$110	\$110
Child & Volunteer Gifts	\$1,775	\$1,875
Project Clean H2Ope	\$2,641	\$1,815
Vocational (Trade) School	\$2,160	\$8,127
Mission Experience Scholarships	\$2,750	\$2,913
Other Program Expenses	---	\$940
Salaries	---	\$0
Fundraising	\$0	\$0
Miscellaneous Donations / Expenses	\$8,098	\$2,270
<b>2014 Totals</b>	<b>\$65,725</b>	<b>\$63,171</b>
<b>Retained Earnings</b>		<b>\$2,554</b>

In 2014, 96.4% of Give2GiveHope's expenditures were used for programs that benefit impoverished children and their families.

2014 retained earnings will be used in the future for Project Clean H2Ope, the Give2GiveHope vocational school, mission experience scholarships and other projects that bring hope to the communities we serve.

- 96.4% Programs
- 3.6% Operations\*

\*Operations include PayPal and foreign exchange fees, wire transfer fees, marketing, postage, printing, legal and professional fees, fundraising, administrative travel, supplies and other general expenses.

2014 financial review

# give2givehope vocational school - phase I

We've come a long way in just two years and are excited about the progress of our Carpentry Shop (Phase I) of the Vocational School. To date, we've sent down \$13,603 and another \$5,000 was sent by Ogemaw Hills Free Methodist Church to help complete the first part of this project. We need to raise an additional \$5,000 - \$7,000 to complete Phase I. We would like to wrap up Phase I in 2015 and then purchase carpentry equipment for the students to use.

2012

The youth have been learning building skills as they help with the construction of the school. Pictured above are brothers Alex & Selvin who graduated from CTECH this year.

2014

Even young children help as they are able because they understand what this school means for their future.

Phase II is currently planned to start construction in 2016. This phase will be a large open classroom area where we can provide training and education for young women. One day we'd like to be able to teach hygiene, childcare and parenting, basic medical care, and possibly even vocational training like sewing or how to run a home micro-business.

**If you'd like to help see this project to completion, please visit [www.give2givehope.org/school](http://www.give2givehope.org/school)**

## project clean h2ope

In 2014, we tested the biosand filters once again and found that issues with the sand quality in Honduras have not been fixed. We've decided that going forward, we will be using the Sawyer filters which are more portable, easier to install, cost less, provide immediate clean water, and are just as effective. Funds are set aside to purchase an additional 70 filters in 2015.

**If you'd like to help bring clean water to a family, visit [www.give2givehope/h2o](http://www.give2givehope/h2o)**

(Far Left) Bonnie helps install one of the 20 biosand filters that Give2GiveHope placed in 2014. We now have supplied clean water to over 230 households!

(Left) Ken installs the filtration end of the Sawyer water filter. These filters cost around \$50 and provide a lifetime of clean water to an entire family. In 2014, we made connections with another non-profit who can supply the filters to us in-country so we're able to buy them as we have funds and no longer need to purchase them in bulk in the US.

## Child Sponsorship Continues to Grow

We ended 2014 with 154 children sponsored - either getting food or education each month through donations from their sponsors. What a way to end the year on a high note! We saw an increase of 34% (39 children) during 2014. WOW!

805% increase in 5 years!

In December, we were able to celebrate the graduation of two more young men from CTECH trade school in Puerto Cortes, and a young woman from beautician school. There's a growing hunger among the teenagers to gain an education as they realize how important it is for their future. Unfortunately, sometimes it's a choice between necessary food and receiving an education. If you'd like to help ensure a child receives secondary schooling, please let us know of your interest and we'll get you connected with a child desiring advanced schooling.

**If you would like to sponsor an urgent needs child, visit our website at [www.give2givehope.org/urgent](http://www.give2givehope.org/urgent)**

(Above left) Everyone pitches in during food distribution day. All the food has to be unloaded from the truck and all the rice and beans weighed out for the children.

(Above right) Kenar is a good student. He tries hard to sit still during class and pay attention to make his sponsor proud that he's staying in school and learning.

(Left) Luis and his two brothers were in desperate need and Nikki & Dave came to their rescue and sponsored all three boys. Here Luis is writing a Christmas card to his sponsors.

## MiniMission 2014

The focus of our MiniMission 2014 in October was to check out the progress of the trade school, to encourage and provide direction to our volunteers, help plan a program to give out vitamins to children and pregnant mothers and to discuss vision for 2015 and beyond.

Additionally, this year we were seeking confirmation that God was calling Ralph & Aleda Gilmore to serve as our first part-time staff to help ease the burden for our existing volunteer coordinators. After much discussion and prayer, we are happy to share the good news that they are itinerating and hope to be residents in Honduras by the end of 2015.

The Gilmores bring a lot of great knowledge and gifts which will complement our existing volunteer staff. They will be administrating our program in Honduras, freeing up Pastor Javier & Letty for other ministries at our partner church, Monte de Santidad.

**If you would like to support the Gilmore family, visit our website at [www.give2givehope.org/donate](http://www.give2givehope.org/donate)**

## Ogemaw Hills Mission Trip

Ogemaw Hills Free Methodist Church in West Branch, Michigan played a pivotal role in the foundation of Give2GiveHope and have been great partners with our organization since our founding. In 2014, they led their first trip back to Honduras since 2008. During their visit there, they moved over 1500 cement blocks across the river to help in the construction of the Trade School. They also installed 20 biosand clean water filters, visited the school at Sapadril Arriba, and spent a lot of time visiting and ministering to the community. It was a fantastic experience for the team and we are so grateful to have them as partners in this ministry and community.

Ogemaw Hills Mission Team - June 2014.

Aleda Gilmore holds a starving baby. He was severely malnourished and lethargic from hunger when the team stopped by to visit late in the afternoon. His family had no food and they didn't know when their next meal would come. Because of you, Give2GiveHope was able to provide them food that day and provisions to last a few days more.
