food • clothing • medical care • education • hope

Give2GiveHope is a 501 (c) (3) non-profit organization dedicated to providing food, clothing, medical care and education to impoverished children

danilo

Sometimes medicines are out of reach - even medicines for things like tuberculosis. Thanks to Danilo's sponsor, he will receive the medical care and food he needs to become healthy and be able to overcome his illness.

milady

When you have no money for food, buying the uniform required to attend school is only a dream for some children. Because of her sponsor, Milady has the opportunity to receive an education and a chance to break the cycle of poverty.

what does give2givehope do?

Our mission is to provide food, clothing, medical care & education to impoverished children. We do this primarily through a monthly sponsorship program where donors can sponsor a child in need who is enrolled in our program. The monthly cost to participate in our sponsorship program is \$30 (USD) per month.

how much of the \$30 goes to my sponsored child?

is used to cover costs of getting the supplies to the children **2%**

is used for bank and exchange fees **5.3%**

is used for all other operating costs including printing & copies, photos, displays, postage, stationery (letters from children), bags & totes, supplies to run the program (files & folders, scale, backpack) & many other things... including this brochure. **4.7%**

i can't afford to sponsor a child. are there other ways i can help?

Because our goal is to maximize the funds going to each child, we withhold only a small percentage of monthly sponsorship donations for operating expenses. These expenses often exceed what we withhold and so we depend on generous donors to help us meet our expenses by making undesignated gifts.

You can also support give2givehope by giving to a designated project or fund. A current list of projects & other ways to get involved can be found at our website:

providing hope for a better tomorrow

Cindy lived in a small 10x10 house with 5 other families. There was barely enough food to go around but because of her sponsor she is now growing into a healthy young girl. Her sponsor has changed the course of Cindy's life.

cindy

Kevin came to the doctor severely malnourished. The doctor didn't believe Kevin had long to live. After spending several months on nourishing formula provided by donors, Kevin is now a healthy boy and he has hope for the future.
